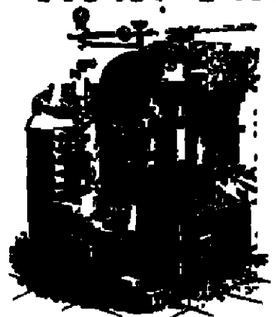
AMERICAN ROBBER COMPANY'S

goods and be sure that they bear this Company's name or trade mark you will be assured of a good article. They are made of the finest Pure Para Rubber and are Sold by all First-Class retailers. Insist on having them and take no other.

JOY, HEALTH AND COMFORT TO THE HOUSEHOLD.

Victor Steam Heater.
(Portable or Brick Set)



All the essential features of the old combination retained and in the reconstruction and improvement there have been five essential additions to a perfect Heater viz: Safety, Durability, Economy, Simplicity and Ease of Management which are the wants of the public, where coal is used. It will do more work with less fuel than any other Heater now in the market. We have only to invite the closest scrutiny of our exhibition in our store and parties contemplating heating by steam are cordially invited to call as I inspect the Victor every morning.

Testimonials from all parts of the United States and especially from our own citizens favor the Victor above all other Heaters.

Further mention to come by

### STATE NEWS

Cumberland

The Portland Company is actively completing the new dock. Steel tanks for the Cumberland Mill are being erected. The 300 feet square and 80 feet high is the pump.

The closing of the factories in the High Street Block on account of the recent fire will throw out of work 150 hands. Arrangements have been made in Chicago to have them run on the same system on which they have been running in Portland.

Richard Merrill, a child of Mrs. W. H. Merrill of Portland, drowned her self in a pail of water. She was found dead in the pail.

Mrs. Merrill of Portland, discovered her husband hanging from the bedpost. She called to a gentleman who was passing and they cut him down. Mr. Merrill was in a despondent condition and had threatened to take his life.

Kennebec

The new factory of the Hallowell Cement Company is fast being completed. The company has a capital of $50,000 and has been organized for the manufacture of the finest cement in the State. It is expected that the factory will be in operation by the 20th of this month.

The building and raising the cant was finished on Wednesday. The building is 40 feet wide and 100 feet long, and is three stories high.

Somerset

To the Whig: I will not trespass much upon your space in order to call up the case of Moses Clark, all of the facts of which I am

Newspaper

Since the beginning of the August the Kennebec Journal has raised the enlargement of seventy-six columns. Large type and more matter have been the explosion which followed the change.

At this work. Having added building of August, and the ample width of all former issues are now for this and will carry at least thirty-four pages to one subscription price. The business of the paper has increased

Lewiston

Chief Engineer of the Lewiston and Auburn Water Board met with accidents while at work on the dam. He was thrown down and his leg was caught in the hand-power of the wheel and broken. He was taken to his home in Auburn and is doing well.

Androscoggin

A week ago Rachel Whitney, an old lady of Leeds, started out in search of a home. She went to Livermore Falls, where she was taken in charge by the overseers of the poor. She was sent to Leeds, her former home, and is now in the poor house.

Washington

The case of the St. Croix cotton mill of Calais vs. Todd Brothers, came before the New Brunswick Court a few days ago and the injunction which has for the Cotton Mill Company was made absolute. The case is set for November 13th, at which time it is agreed how the matter is to be settled. The company has also commenced an action against Todd Brothers for damages.

The dam of the Princeton Water Company has been completed and the water is now flowing into the reservoir. The dam is 30 feet high and 200 feet long. The reservoir is 1½ miles long and covers 100 acres. The water is conveyed to the village through 6 inch pipes.

Hancock
